

DOT Approved Evidential Breath Testers (EBTs) Info Flyer and Order Form

Listed devices are DOT/NHTSA approved and included on the DOT conforming products list.

Phoenix® 6.0BT Evidential Breath Alcohol Tester

The Phoenix 6.0BT by Lifeloc Technologies is a leading evidential breath alcohol tester designed for both DOT and non-DOT workplace testing. Built with a durable 1" platinum fuel cell sensor—warrantied for the life of the instrument—it delivers exceptional accuracy and reliability.

Various kit configurations to meet your needs!

Our GK kit comes complete with a 34 liter dry gas tank for easy calibration and calibration checks for your EBT.

Featuring Bluetooth wireless connectivity, the **Phoenix 6.0BT** allows seamless mobile testing with secure printer communication for use in the field or on-site. Its EasyMode™ software guides users step-by-step through DOT testing protocols, ensuring full compliance and valid results every time.

The included PermAffix™ Labeling System replaces traditional security tape with tamper-evident, self-adhesive labels that fit DOT Alcohol Test Forms perfectly—reducing costs while improving efficiency and record clarity.

For enhanced performance, the optional EASYCAL® G2 Automatic Calibration Station enables automated calibration, cal-checks, recordkeeping, and gas management.

Accurate. Reliable. Easy to Use. Built for Compliance.

Our PermAffix label system wirelessly and securely prints tamperproof ATF labels without the aggravation of tape, cables, or docking stations.

 - Automatic air blank for accuracy
 - 1" platinum fuel cell sensor (lifetime warranty*)
 - Anti-microbial, durable instrument housing
 - Hygienic EasyTab™ mouthpieces
 - Optional computer interface with AlcoMark® diagnostics
 - Rugged, watertight, dustproof carrying case
 - No docking station required
 - 2-year deluxe warranty
 - Made in the USA
-

EV30™ Evidential Workplace Breath Alcohol Tester

The Lifeloc EV30 is an American-manufactured evidential breath alcohol tester for DOT and non-DOT alcohol testing. Simple to learn and easy to use the EV30 employs Lifeloc's 1 inch platinum fuel cell sampling system. No other sampling system has a longer working life or is better suited to deep lung breath alcohol testing. The EV30 fuel cell is warrantied for the life of your instrument.

The EV30 instrument and printer are built to last. A double-sealed weather resistant display, gasket protected buttons, and a rugged housing along with conformance with international drop, shock and vibration standards assures years of reliable performance. Our newest travel cases are watertight, dust proof and crushproof with reinforced hinges and latches to protect your investment.

The EV30 thermal printer (ribbon-free) is fast and quiet. Standout features include large paper roll capacity and low paper alert. The long-life lithium-ion battery can be recharged in the printer without the need for a separate battery charger. With a storage shelf life of up to 20 years, Lifeloc Thermalast paper easily exceeds DOT record retention requirements while providing sharp, high contrast print-outs for unambiguous interpretation.

EV30 Key Features & Benefits:

Smart Technology

- Password protection prevents unauthorized changes to settings
- Calibration reminders and lockout features to maintain compliance
- Computer interface for printing, sorting, analyzing, exporting, and archiving data

Precision Instruments

- 1" diameter platinum fuel cell for exceptional accuracy and long life (*lifetime warranty*)
- Automatic deep lung sampling ensures valid breath samples
- Rapid, repeatable testing with no downtime between tests

Ease of Use

- Fully automated operation for simplified testing
- Quick and easy electronic calibration
- Customizable menu settings (test mode, time/date, calibration, printing, and more)
- Clear, easy-to-follow prompts and alerts
- Durable, compact design for portability
- Exceptional battery life — up to 70 hours

Five-Star Customer Care

- Deluxe 1-year warranty with free loaner units during repairs
- Live, onsite technical support from trained specialists
- Fast repair turnaround (5 days or less, or it's free)
- Comprehensive service packages, including extended warranties and recertification
